

CM100LTE

4G LTE CONNECTIVITY

The CM100LTE connectivity module easily connects to a BlackVue X Series dash cam to provide an always-on 4G LTE connection to BlackVue Cloud and its suite of unique LIVE features.

Simply add the new plug-and-play CM100LTE to your BlackVue DR750X or DR900X setup to enjoy always-on connectivity to BlackVue Cloud.

That means that you are always connected to any dash cam via the BlackVue app, from anywhere in the world, able to access Cloud features like Live View, Video Back-Up and Real Time Tracking. Should something happen to your vehicle while you're not around, an incident, an accident or perhaps an act of vandalism - you will receive a push notification via the BlackVue app, and the opportunity to view the footage remotely.

The CM100LTE is supplied with a Vodafone SIM card. Activate via the Vodafone Smart App to unlock a massive 40GB monthly data allowance for only £4.00 per month. Alternatively use your own choice of Network Provider, SIM card and data plan.

The compact CM100LTE measures only 9cm (H) x 6cm (H) x 1cm (D) and connects to the USB port of your dash cam via a 1.5m long connection cable. It should be positioned somewhere in the windscreen area of the vehicle for optimal 4G reception.

Cloud Compatible

KEY FEATURES

- 4G LTE - Plug-in the CM100LTE external connectivity module with Vodafone V-Sim and you'll always be connected to your dash cam via the BlackVue app and 4G, and always able to receive notifications and remotely view video clips in the event of an incident. The CM100LTE transforms your BlackVue DR750X/DR900X into more than just a dash cam, it becomes an advanced video surveillance system for your car, thanks to BlackVue Cloud's unique connected features.
- BlackVue Cloud - BlackVue Cloud is a suite of innovative app-driven features that remotely connect you with your vehicle via a Wi-Fi internet connection or 4G hotspot. Be informed of incidents such as impacts via Push Notifications to your Apple or Android phone, check on your car with Remote Live View, play recorded video clips remotely and back-up important ones to the Cloud or your phone.
- Compatible with BlackVue DR750X and DR900X dash cams
- Vodafone V-Sim Data Plan - massive 40GB monthly data allowance for only £4.00 per month, or use your own choice of Network Provider, SIM card and data plan.
